

I understand calibration well and
want to have more control over the
process

Using HydroPSO and high
performance computing
(Incomplete)

Document:
F_SettingUp_hydroPSO.pdf
Document describing the very basics of
setting up hydroPSO for calibrating SWAT.
This is currently incomplete

I am interested in using satellite
based rainfall estimates

CHIRPS and comparison of
CHIRPS data with station data

Document describing downloading
CHIRPS data:
G_DownloadingAndManagingChirps.pdf

Basic rainfall analysis CHIRPS and
stations (INUMET)
Documents describing basic analysis:
H_BasicRainfallAnalysisINUMET.PDF
and
H1_BasicRainfallAnalysisCHIRPS.PDF

Document describing the comparison of
station and CHIRPS data:
H2_ComparativeAnalysisChirpsInumet.pdf
